# Pathway to In-Person Gatherings

There is a light at the end of the tunnel. As our state begins to open up, we want a clear pathway to our in-person gatherings. We will work diligently to ensure our practices and facility are compliant with Idaho's "Opening Up Guidelines," CDC guidelines, and are safe for those who attend our gatherings. Our desire is to meet in person *May 31, 2020.

**Practices & Procedures:**

- Continue to stream and encourage online gatherings
- All "at-risk" people, those with underlying health concerns, and those experiencing symptoms such as: fever, cough, and/or sneezing are requested to not attend, and continue practicing "safer at home"
- Families will worship together (Canvas Kids, which includes Jr. Kids and nursery will not be in operation until all restrictions have been lifted (currently June 28))
- Every other row will be blocked off. One Individual or couple per end of row. One family per row. We need a minimum of three empty chairs between households. Opened rows will be rotated between services
- Two one hour gatherings provided to accommodate proper social distancing (9 AM and 11 AM) with time to sanitize in between
- Sanitizing teams to clean bathrooms, lobby, and auditorium after each service
- Provide Hand sanitizer throughout the facility
- Encourage people to bring their own face mask. Have masks on-site for those who need them. Face masks will be optional but encouraged
- We will NOT pass out bulletins, pass around offering buckets, or pass out communion
- Greeters will open doors and give smiles not handshakes
- No self-serve coffee. Hospitality team will serve coffee

Once all restrictions are lifted in Idaho we will revisit our practices and procedures. It is important to note, these practices and procedures are subject to change as our local and federal regulations/recommendations change.

*Date is subject to change based on local regulations
